The screenshot shows the APA SCOPSERV interface. At the top, there's a header with the logo, TMA (1m 58s), EN ATTENTE (0), FILE (3), and buttons for 'INSCRIRE LE #' and 'COMPOSER'. Below this is a table with columns: STATUT, NOM DE LA FILE, TEMPS D'ATTENTE, EN ATTENTE, and ABANDON. The table contains three rows of data. A 'S'ENREGISTRER' button is at the bottom right of the table.

	STATUT	NOM DE LA FILE	TEMPS D'ATTENTE	EN ATTENTE	ABANDON
☐	BON	default-sales-product	3m 20s	5	0%
☒	BON	default-sales-service	1m 50s	2	0%
☐	BON	default-support	45s	1	2%

S'ENREGISTRER

SCOPTEL & Teams = ScopTeams

Creates a hybrid environment of Teams phone extension and non-Teams within SCOPTEL

- Teams workstations have access to all SCOPTEL IPBX features
- Simplifies internal communications
- Dials external calls through company's SIP trunks without purchasing Microsoft Calling Plans

SIP Telephones

Already have phones ?

No worries, SCOPTEL is interoperable with the majority of brands on the market
