About ScopServ

ScopServ International Inc. is a Montreal based Canadian company and is the creator of ScopTEL IP PBX, the most complete and comprehensive Voice over Internet Protocol based platform available on the market.

VoIP solutions from ScopServ International Inc. are well renowned to be a reliable and superior alternative to traditional and well known proprietary systems. The ScopTEL IP PBX integrated system provides one of the most stable and feature filled environments available on the market.

Transparency, versatility and trust are paramount for ScopServ when it comes to serving our clients. Regular testimonials and letters of appreciation give us pride and satisfaction in our daily process.

Present in 46 countries, ScopServ increases year after year its proximity policy by opening new offices and national resellers.

ScopTEL IP PBX is THE ONLY Complete Business Class VoIP Solution YOU will EVER need!
