

SCOPSERV
INTERNATIONAL INC.

Since 2004

WORLD LEADER IN IP TELEPHONY SOLUTIONS

ScopServ's multiple development pillars have built a solid reputation in telecommunications. The ScopTEL™ software suite IP PBX management system is the most comprehensive graphical administrative interface specifically designed to meet the complex needs of any customer from Small Business to Large Multinational Enterprises.

ScopServ's team of programming experts diligently update and maintain our product catalog to stay in tune with the latest developments in telecommunications technology. Our globally diverse Certified Training and Support Centers based on every continent ensure that our partners maintain the highest quality standards. And our network of approved resellers and distributors demonstrates ScopServ's relentless commitment to customer service around the world.

MORE THAN AN ALTERNATIVE TO TRADITIONAL BUSINESS TELEPHONY, SCOPSERV'S VOIP SOLUTIONS REPRESENT A TOTALLY NEW APPROACH TO BUSINESS COMMUNICATIONS.

The integrated ScopTEL™ IP PBX system offers one of the most stable and rich environments available anywhere in the world. ScopServ is honoured to serve its customers with the utmost transparency, reliability and flexibility.

PRODUCT DATA SHEET

ScopTEL™ IP PBX

Our comprehensive top quality IP PBX software makes ScopTEL IP PBX the nerve center of your telecommunications. Offering comprehensive business call management, this software combines the three fundamental benefits of IP telephony: performance, reliability and scalability. A unified, comprehensive and efficient communication system can now easily be developed using ScopTEL™ IP PBX.

ScopSTATS™

Data management and data analysis rise to new heights thanks to our statistics environment ScopSTATS™. With its system of hierarchical links to associated data, the ScopSTATS™ software guarantees you comprehensive data management.

ScopSWITCH™

ScopSWITCH™ lets you get relevant information in real time. This high-performance tool lets agents and call center supervisors closely monitor user status instantaneously and have tangible proof of the efficiency of any customer service center.

ScopDEV™

ScopDEV™ now provides full interoperability between the ScopTEL™ IP PBX telephony software and any other external application. While engaged in a customer call, this software development tool works in the background using fast information transfer to build personalized files.

ScopCOMM™

ScopCOMM™ offers you a true real-time high-performance communication system, combining audio and video. Intuitive and user-centric, our instant presence and messaging management ensures your business stays at the cutting edge of communication technologies internally and externally.

ScopDIAL™

Simplify your working methods by using the ScopDIAL™ automatic dialling tool. By automatically detecting contacts and telephone numbers and sending them to the ScopTEL™ IP PBX server, the ScopDIAL™ tool saves you substantial time in your routine tasks.
