

## WORLD PIONEER IN IP TELEPHONY SOLUTION

**ScopServ International Inc.** is a global pioneer in the IP telephony solution design which combines the three fundamental benefits of IP telephony: cost, reliability and scalability.

Specialized since 2002 in multifunction server design and software development, we created our flagship software **SCOPTEL IPBX** as a unified communication platform integrating multiple network architectures. Used in over 46 countries, **ScopServ's** VoIP solutions are recognized by a growing network of resellers and distributors who demonstrate their commitment to customer service around the world.

**ScopServ** is also a team of experts in telecommunications and information technology, always on the look-out for new products to ensure continuous improvement of its portfolio, while adopting industry best practices.

In order to meet the current market needs, **ScopServ** introduces **SCOPCLOUD** a new high-end VoIP turnkey product offered in Communication Platform as a Service (CPaaS) mode.

**SCOPCLOUD** provides comprehensive and uncompromising solutions for any present and future need for unified communications and collaboration.
